

▶ FINISHES/CARPET/ ACCESSORIES

The electrical, HVAC and plumbing finishes are installed while drywall and paint final touch-ups are being made. Carpets and accessories will be coming soon. These are some of the final elements to be placed in your home. Shelves, mirrors, hardware, gutters and shutters are all installed right around the time of carpet installation. Once carpet is installed, we ask the shoes be removed when visiting your home. Please be careful as debris is still left in the home due to not having the final clean.

Do not worry! Lists are made and the smallest of details are tracked. If you have any specific concerns or questions, please contact your Field Superintendent directly by phone. Text may be used to notify the need for a call back, but we ask to limit text messages regarding items that require a conversation. This meeting lasts about 2 hours and happens Monday through Friday, 9 AM to 3 PM. *Evening and weekend appointments are not available.*

▶ DRYWALL + PAINT TOUCH-UP

Your Field Superintendent will complete a drywall and paint touch-up quality control review. You may see stickered dots placed throughout the home noting all areas needed for repair. Please do not remove these dots or add to these dots as some are meant for an entire area or a specific repair. The communication between your Field Superintendent and the drywall/paint trade is very thorough. Some areas of repair are also communicated directly from the Field Superintendent to the drywall/trade and not noted by a dot due to the specific details.

Pyatt Builders is part of the Builders Association of Greater Indianapolis (BAGI). Our finish level is in accordance with the guidelines of this organization. Your Field Superintendent will be discussing these guidelines in person at your Construction Homeowner Meeting 3.

Please allow at least 2 hours for this meeting. All appointments are scheduled Monday through Friday, 9 AM to 3 PM. *Evening and weekend appointments are not available.*
