

▶ DRAWINGS + PERMITS

Here is a behind-the-scenes look! Your architectural prints are now being drawn with your specific selection choices. A plot plan is on order with your home shown on your homesite. As soon as all of your prints are received, permits will be ordered that allow us to build your home!

REMINDER:

At Construction Homeowner Meeting 1, you will have the opportunity to review your newly drawn prints and your lot specific plot plan.

Your lot specific prints show electrical choices and it is required to review and sign-off with your Field Superintendent in order to move onto the next phase of construction. Please note these are the only set of prints allowed to pass from construction to homeowner. Actual “blueprints” are proprietary.

Don't forget a start date has not been established yet! Be patient, when your permits are received back and your foundation is scheduled, a start date can be established.

Because you have finalized selections, changes are no longer allowed to be made. If you have conveyed anything verbally on specific changes, please make sure to follow up until you receive an answer in writing.
